

*fezz*  
MADE OF MUSIC.

KATALOG / CATALOGUE

It brings me great pleasure to present the new 2022/23 Fezz catalog. It has this time undergone significant changes, which stem from the fact that we finished work on our new amplifier design strategy and our exploration of areas, in which we have not been present until now.

I hereby invite you to explore the world of Fezz Evolution, a world created of music and passion for its perfect reproduction.

Maciej Lachowski

Fezz stands for unforgettable emotions and a unique experience. We create our amplifiers, so that you can enjoy music in a full spectrum.

The Fezz facility is located in north-eastern Poland, in the beautiful Podlasie region. Here we work with our team of engineers on creating the best audio solutions to create unique musical experiences.

With a spirit of innovation and determination, Fezz continues its evolution to introduce improvements in our products every day.

We invite you to take this exciting journey with us!

Fezz just **MADE OF MUSIC**, Fezz stands for modern technology and exceptional form. These devices will allow you to reliably enjoy excellent sound quality, original design and the available solutions in accordance with your needs.

Fezz is **MADE OF MUSIC**, because music is most important to us.

### JOY

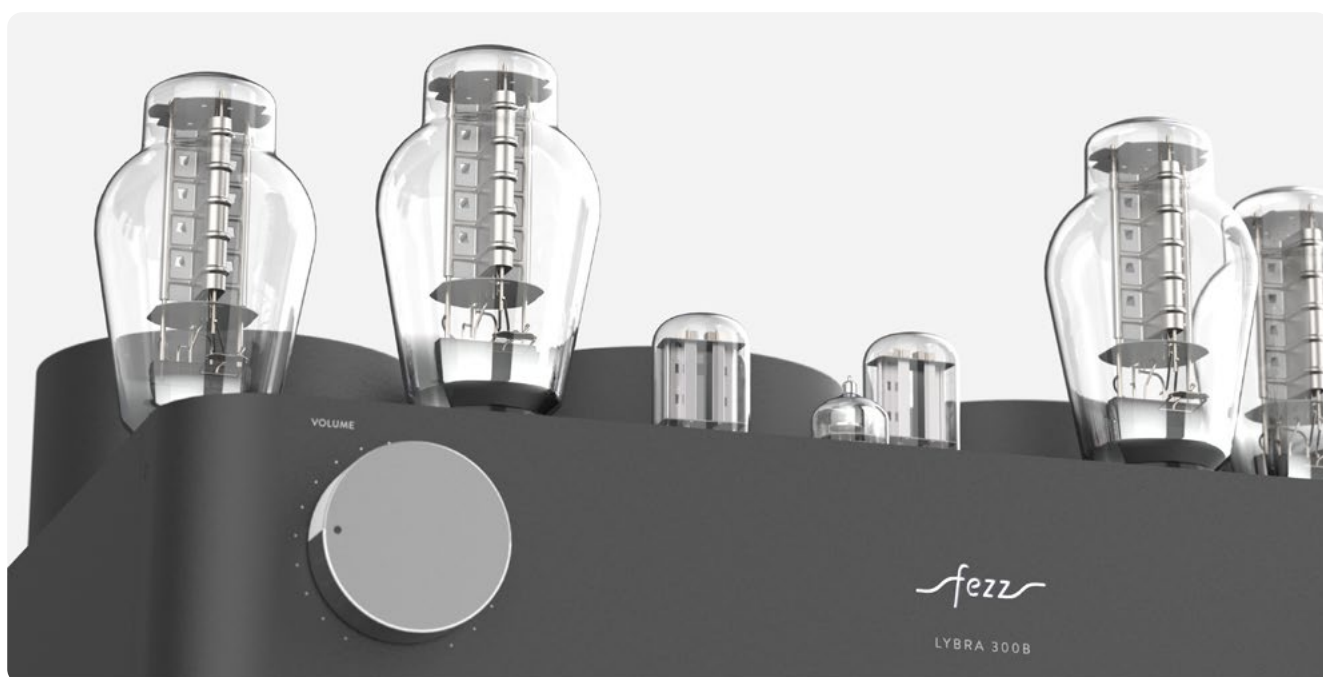

Music is our love and passion. We do not want and cannot live without it. Through our products we share this joy with others – we bring people together and show them how to draw the full spectrum of emotions from music.

### RELIABILITY

Only components of the highest quality have been used in all our products. Over 80% of the production process is performed in our facility in Kolonia Koplany.

### ENGAGEMENT

We've got your back. Whether you need advice with a purchase, support or simply want to share your hi-fi passion with us.

# Fezz... the beauty of form & sound

## EXCELLENT SOUND

Every Fezz device is carefully designed from the ground up using best-in-class solutions and materials. The sound quality is strictly controlled and evaluated by experienced sound engineers, so that you not only hear every detail, but also feel the emotions.

## RELIABILITY

Many years of experience serve as the basis for proven and failure-free solutions, and our own production allows us to guard every stage of the creation of your dream audio device.

## TAILORED TO YOUR NEEDS

Our wide portfolio, which includes vacuum tube and solid state amplifiers, allows us to respond to the different needs of listeners. Tube amplifiers allow the sound to be modified, while solid states are ease to use and versatile by nature.

## MODERN DESIGN

The beauty of the forms of Fezz devices is supervised by a team of designers from the renowned KABO & PYDO studio. All this is done to ensure that our amplifiers not only sound great, but also provide a unique and tasteful element of the interior of your home.

## SOLUTIONS

Our devices are packed with useful features and setting them up is a breeze.

# Silver Luna Prestige

2620 €

## The most universal amplifier in our offer.

Silver Luna Prestige is equipped with an additional set of 6N2P control tubes and a switch for changing the pentode/tetrode mode. This gives the possibility to obtain four separate tone colours, depending on the listener's preferences.

## TECHNICAL DATA

## Type

Model Silver Luna Prestige, Evolution Line

**Moc wyjściowa**  
Output power 2×35W

Circuit type push-pull AB1

Output impedance 4Ω/8Ω

Inputs 3xRCA + opcjonalnie 1xRCA (pre-in)

Harmonic distortions THD &lt;0,35%

Frequency response 15Hz-77kHz (-3dB)

Power consumption 170W

AC fuse 3,15T

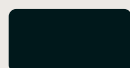

Net Weight 20,7 kg

Dimensions (S x G x W) 355×380×195 mm

Tubes 4xEL34 / 2×12AX7, 6N2P, autobias

Additional options pilot, HT (pre-in), kosz ochronny, bluetooth, sub-out, zestaw lamp premium

"I am very impressed with the Silver Luna Prestige, in my opinion this amplifier is fantastic."

Thomas R.

# Titania

3050 €

**The Titania is an exceptionally efficient and dynamic sounding amplifier.**

It has an open, airy sound, yet is amazingly neutral. It provides excellent bass control and texture. Localization of phantom images is its unquestionable advantage and its high power output guarantees correct drive of even very demanding loudspeakers. The Titania will work with all types of music from rock and metal to jazz and classical.

## TECHNICAL DATA

## Type

Model Titania, Evolution Line

Output power 2×45W

Circuit type push-pull AB1

Output impedance 4Ω/8Ω

Inputs 3xRCA + opcjonalnie 1xRCA (pre-in)

Harmonic distortions THD &lt;0,2%

Frequency response 18Hz-103kHz (-3dB)

Power consumption 225W

AC fuse 3,15T

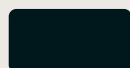

Net Weight 21 kg

Dimensions (S x G x W) 420×380×200 mm

Tubes 4xKT88 / 2×12AX7, autobias

Additional options pilot, HT (pre-in), kosz ochronny, bluetooth, sub-out, zestaw lamp premium

"When the bass guitar combined with the drums resounded together, the accumulated energy exploded full force. I was almost thrown to the floor."

Martin D.

"I was unable to get out of the arms of the enveloping sound of the KT88 tube... To this day when I recall them I smile to myself."

Jan S.

# Mira Ceti 2A3

3575 €

**The Mira Ceti 2A3 tube amplifier has been created for connoisseurs of sublime 2A3 tube sound.**

Mira Ceti 2A3 is an amplifier with a very mature and dynamic sound, which perfectly reproduces the natural timbre of instruments. Its undoubted advantage is openness of sound and precision of presentation. It is perfect for conveying chamber symphonic ensembles, blues, jazz and classic rock.

## TECHNICAL DATA

## Type

Model Mira Ceti 2A3, Linia Evolution / Mira Ceti 2A3, Evolution Line

Output power 2×3W

Circuit type push-pull A

Output impedance 4Ω/8Ω

Inputs 3xRCA + opcjonalnie 1xRCA (pre-in)

Harmonic distortions THD &lt;0,25%

Frequency response 20Hz-56kHz (-3dB)

Power consumption 90W

AC fuse 3,15T

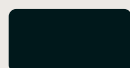

Net Weight 19,5 kg

Dimensions (S x G x W) 420×380×200 mm

Tubes 2×2A3 / 2×6SN7, autobias

Additional options pilot, HT (pre-in), kosz ochronny, bluetooth, sub-out, zestaw lamp premium

"The music played on the Mira Ceti is literally, fabulously smooth and emotionally engaging."

Julia P.

# Mira Ceti 300B

3575 €

**The Mira Ceti 300B is one of the few Single Ended (SE) tube amplifiers in the world made with toroidal speaker transformers.**

It is characterised by an outstanding, saturated midrange, dynamics and a solid bass base. It is the essence of analogue sound - its enchanting timbre amazingly realistically reproduces vocal, classical and jazz music.

## TECHNICAL DATA

## Type

Model Mira Ceti 300B, Evolution Line

Output power 2×8W

Circuit type push-pull klasa A

Output impedance 4Ω/8Ω

Inputs 3xRCA + opcjonalnie 1xRCA (pre-in)

Harmonic distortions THD &lt;0,4%

Frequency response 20Hz-65kHz (-3dB)

Power consumption 115W

AC fuse 3,15T

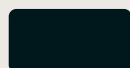

Net Weight 19,5 kg

Dimensions (S x G x W) 420×380×200 mm

Tubes 2×300B / 2×6SN7, autobias

Additional options pilot, HT (pre-in), kosz ochronny, bluetooth, sub-out, zestaw lamp premium

"In short: we fell in love with the Mira Ceti amplifier by Fezz Audio. It's a great Single-Ended design and the fastest, most vibrant amplifier we've had the opportunity to listen to."

Eva R. &amp; Matthias L.

# Lybra

4820 €

**An amplifier designed for the most demanding enthusiasts of 300B tube sound.**

The unprecedented PSE structure operating in class A was built using the highest quality toroidal transformers, designed especially for this amplifier. This guarantees linearity and wide frequency response. Extended tube life is ensured by delayed anode voltage switching. The unique tone of the 300B tubes is free, spacious and very involving.

## TECHNICAL DATA

## Type

Model Lybra, Evolution Line

Output power 2×15W

Circuit type PSE (parallel single ended)

Output impedance 4Ω/8Ω

Inputs 3xRCA + opcjonalnie 1xRCA (pre-in)

Harmonic distortions THD &lt;0,25%

Frequency response 12Hz-60kHz (-3dB)

Power consumption 180W

AC fuse 3,15T

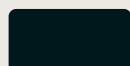

Net Weight 23,5 kg

Dimensions (S x G x W) 420×380×226 mm

Tubes 4×300B / 2×6SN7, 1×12AX7, autobias

Additional options pilot, HT (pre-in), kosz ochronny, bluetooth, sub-out, zestaw lamp premium

"It is lively, pleasant and non-fatiguing sounding amplifier with great selectivity and a precisely built sound stage."

Giovanni S.

# Omega Lupi

2350 €

**An amplifier that can cope with even the most demanding headphones.**

Omega Lupi sounds very neutral, giving both a plastic transmission and a solid bass base. It leaves no shadow of doubt that this is top class equipment. It will drive any type of headphone, and the ease of impedance matching in the 32-600 ohm range opens up completely new possibilities.

See what your headphones really offer – from now on, the limitations are only on their side.

## TECHNICAL DATA

## Type

Model Omega Lupi, Evolution Line

Output power 2×250mW

Circuit type push-pull klasa AB1

Output impedance 32Ω-600Ω

Inputs 1xRCA

Outputs 1xRCA

Harmonic distortions THD &lt;0,3%

Frequency response 20Hz-120kHz (-3dB)

Power consumption 90W

AC fuse 3,15T

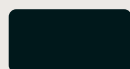

Net Weight 15,2 kg

Dimensions (S x G x W) 355×380×175 mm

Tubes 4xPCL86, autobias

Additional options kosz ochronny, pilot

"The sounding of Omega Lupi is formed – it is shaped to be a deep and saturated, to make the bass extension an important part of the musical performance."

Mateusz Z.

# Gaia Mini MM/MC

599 €

**A high-end phono preamplifier designed to work with MM and MC HO cartridges.**

High quality elements guarantee excellent dynamics. The character of the sound can be described as mature and sublime.

## TECHNICAL DATA

Type	Phono preamplifier MM/MC
Model	Gaia Mini MM/MC, Evolution Line
AC Supply	Stabilizowany + transformator EI standard
Gain	MM: 60dB, MC: 53 dB
Phono EQ standard	RIAA
Input impedance	MC: 100Ω, MM: 47kΩ
Operation amplifier	OPA2132
Harmonic distortions THD (20Hz-20kHz):	MM: <0,15% MC: <0,008
Signal/noise ratio	90dB
Power consumption	5W
Net Weight	3,5 kg
Dimensions (S x G x W)	212×212×95 mm

# Gaia MM/MC

720 €

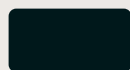

**A phono preamplifier for MM and MC HO cartridges made on the basis of top class elements.**

Gaia MM/MC can be successfully used with transistor and tube amplifiers. The sound enchants with a rich midrange. It is fast, dynamic and extremely transparent. With its „black background“ and wide soundstage it definitely exceeds the limitations of preamps available on the market.

## TECHNICAL DATA

Type	Phono preamplifier MM/MC
Model	Gaia MM/MC, Evolution Line
AC Supply	Stabilized + toroidal Audio Grade transformer by Toroidy.pl
Gain	MM: 53dB, MC: 60dB
Phono EQ standard	RIAA
Input impedance	MM: 47k $\Omega$ , MC: 100 $\Omega$
Operation amplifier	Burson Audio Supreme V5i
Harmonic distortions THD (20Hz-20kHz):	MM: <0,15%, MC: < 0,008%
Signal/noise ratio	92dB
Power consumption	10W
Net Weight	5 kg
Dimensions (S x G x W)	212×320×95 mm

# Gratia MM/MC

1200 €

## New version of Gratia MM/MC phono stage

In standard Gratia is equipped with anti-vibration feet, adapted to the weight of the device. Backlight logo. A phono stage is designed to work with MM, MC HO and MC cartridges. The amplification section is based on the high end operational amplifier – Burson Supreme Sound Opamp V5i. The heart of the extended power path is the Supreme Audio Toroidy.pl transformer.

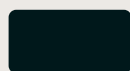

Undeniable advantage of Gratia is universality. Thanks to the wide settings varieties, it can be a perfect match with a low output signal level MC cartridges.

## TECHNICAL DATA

Type	Phono preamplifier MM/MC
Model	Gratia MM/MC, Evolution Line
AC Supply	Stabilized + toroidal Supreme Audio Grade transformer by Toroidy.pl
Gain	MM/MC LOW: 50dB / 60dB
Cadridge type	MM/MC HO/MC
Inputs / Outputs	2/1
Input impedance	47k $\Omega$ / 50-1k $\Omega$
Operation amplifier	Burson Audio Supreme V5i
Subsonic filter	YES
Stereo/Mono mode switch	YES
Harmonic distortions THD (20Hz-20kHz):	<0.005%
Signal/noise ratio	>92dB / >90dB
Power consumption	12W
Net Weight	8 kg
Dimensions (S x G x W)	355×380×95 mm

# Torus 5060

1990 €

**The Fezz Audio Torus 5060 amplifier meets the expectations of customers looking for a complete home audio solution.**

The Torus 5060 combines a wide range of functionality with top quality stereo sound. The built-in DAC gives you the ability to connect up to 3 digital sources, allowing the amplifier to be used in a wide spectrum of modern multimedia. Phono preamp and tape loop are sure to be appreciated by analogue lovers. Powerful 90W per channel provides excellent dynamics, which can be further enhanced with a subwoofer thanks to the sub-out output. Wireless streaming of premium HQ music is via Bluetooth 5.0, compatible with the MQA Tidal Master Quality format.

The Torus 5060 is also a high-end headphone amplifier. Four line inputs, the ability to switch to amplifier mode, and the included remote control round out the device's extensive feature list.

## TECHNICAL DATA

**Typ** Solid state stereo integrated amplifier

**Model** Torus 5060

**Output power** 90W (4Ω) / 65W (8Ω)

**Circuit type** Dual mono AB class + audio grade toroidal transformer

**Line signal inputs** 4x gold plated 2xRCA 1x pre-in gold plated

**Line signal outputs** tape output (tape loop) **subwoofer output**

**Features** stereo amplifier, digital inputs: 1x S/PDIF 24/192 kHz, coaxial PCM 24/192 kHz, 1x USB 24 bit/192 kHz, advanced jitter attenuating PLL with low intrinsic period jitter of 50 ps RMS for S/PDIF input, DAC, Bluetooth 5.0 receiver (compatible with MQA Tidal), headphone amplifier, MM cartridges phono-stage, remote control

**S/N Ratio** > 100dB

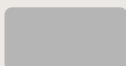

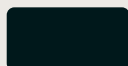

**Frequency response** 5Hz-100kHz (-3dB)

**Power consumption** max. 200W

**Net Weight** 7,5 kg

**Dimensions (S x G x W)** 430×330×97 mm

**Colours**

black ALU

silver ALU

"Highly musical, neutral sounding with good bass extension and above-average spatiality."

Mark D.
